Dr. ir. Cees Haringa

+31 15 27 89275

c.haringa@tudelft.nl

Career

03/2021 - present **Assistant Professor Bioprocess Eng., TU Delft**

Interests: Industrial fermentations, process modeling, fluid dynamics, downscaling.
50/50 education/research position
Teaching: BSc: Thermodynamics, Programming. MSc: Numerical methods
Research: Main supervisor of 3 PhD, co-supervisor of 4 PhD students & 1 Post-Doc
Co-applicant of 3 granted consortium projects, including NGF 'Cellular Agriculture'
Other: Board member of the Delft Young Academy
Chair of the LST & BEI education committees, AI in Applied Science workgroup
Course board member 'Modelling & Computation for Micro-organisms in Bioprocesses'
Co-organizer dept. strategy days, faculty day 'onboarding new lecturers'

08/2017 - 01/2021 **Scientist CFD/fermentation, DSM**
Additional activities: One Young World ambassador., CTO sounding board member. Guest lecturer TU Delft, supervised 3 MSc students. Steering committee member for 3 public-private partnerships (NWO, ISPT). Supervisor of 5 interns
Ambassador DSM NEXT & Dutch inter-company association (ICA)

05/2013 - 06/2017 **Ph.D. Candidate, TU Delft**

Topic: "Hydrodynamic - kinetic interaction in industrial fermentors"

Promotors: Prof. dr. R.F. Mudde, Prof. dr. ir. H.J. Noorman
In collaboration with DSM/DSM Sinochem pharma., ECUST Shanghai

Supervised 4 MSc, 5 BSc students, T.A. for 2 MSc and 5 BSc courses/practicals

02/2012 - 06/2012 **Intern, BASF SE, Ludwigshafen (Germany)**

Education

05/2013 - 12/2017 **Ph.D. Chem. Eng. (Cum Laude)**
Delft University of Technology

02/2011 - 04/2013 **M.Sc., Chemical Engineering**
GPA: 8.5/10 **Delft University of Technology**

Thesis: "Breakup of droplets in microfluidic T-junctions" (grade 8.5/10)
M.Sc. Track: Process Engineering

09/2006 - 05/2011 **B.Sc., Molecular Science & Technology**
Delft University of Technology
Major: Chemical Engineering
Minor: Management of industrial operations

Additional experience

2014, 2015 **Summer school organizer** *Delft Process Technology Institute*
Board member, seminar host *Transport phenomena, TU Delft*

2009 - 2010 **Member 116th board "Technologisch Gezelschap"**
Study association representing ~700 BSc/MSc students
Responsible for tours & company visits (tour budget 75k€)

Other: Museum host '150 jaar gist' (DSM)
Various committees (Technologisch Gezelschap)
Sustainability committee (Young Democrats)
Reviewer for several academic publications

Personal information

Date of birth: 14-05-1988
Nationality: Dutch
Driving license: B

Honors and Awards

Teacher of the year LST 2022
DECHEMA Industrial bioprocess award 2018
Unilever Research Prize 2013
FFBiotech poster award 2017

(Co-) author of 25 publications in academic journals

Areas of expertise:

Fluid dynamics
Process engineering
Process simulation
Reaction modeling
Thermodynamics
Microfluidics

Additional education:

Microbial physiology and fermentation technology
Time & Project management
Basics of teaching
Popular scientific writing

Software skills:

ANSYS Fluid dynamics, MSTAR-CFD, MATLAB, PyTHON, Julia, ASPEN+, C, LaTEX, Adobe creative suite
Microsoft office

Languages:

Dutch: Native
English: Fluent
German: Good

Interests:

Photography
Non-fiction reading
Drawing & painting
(Bass) guitar
